Enthusiastic and dedicated final year B.Tech student in AIML with knowledge in various core computer science areas such as data analysis, machine learning, and IoT systems. Passionate about building real-world tech solutions that are impactful and scalable. I am looking for opportunities to grow under the guidance of industry mentors.

Projects

- Attendance System: Developed an automated attendance system using Python backend to detect nearby Bluetooth devices and log their names with timestamps in a text file for seamless, contactless tracking.
- Smart Fencing System: The system ensures real-time monitoring, sends instant alerts via GSM, and uses animal-friendly deterrents like sound and lights. Key innovations included cloud integration for remote access, use of solar panels for sustainability, and deployment of a deep learning model for accurate species classification.
- Arogya-Nidhi: Built an Android app that recommends government healthcare schemes based on user eligibility and provides document requirements and nearby hospital details using Firebase and Google Maps integration.

Skills

- Programming: C, Python, Java, Kotlin.
- Technologies: Machine Learning, IoT, MongoDB, Power BI, SQL, Android Studio, Jetpack Compose.
- Core Concepts: Full Stack Development.
- Soft Skills: Leadership, Discipline, Team Collaboration, Time Management and Adaptability.
- Languages: Kannada, Hindi, English.

Education

Shri Madhwa Vadiraja Institute of Technology and Management B.Tech in Artificial Intelligence and Machine Learning 2022 – 2026.

Certifications

- Machine Learning Algorithms – Great Learning Academy(2024)
- C Programming Language – Code Chef(2025)
- Smart Tech with IoT: Building Intelligent and Innovative Applications - Mr Vijay GH , Head of Technology , DLithe Consultancy Services Pvt.Ltd, Bengaluru(2025)
- Build it All: A Deep Dive into Full Stack Engineering – GK Bhat Kakunje, CEO & MD, Kakunje Software Pvt. Ltd, Mangaluru(2025)
- Android App Developer – MindMatrix.io (2026)
